

Beyond Compliance.

Empowering the FUTURE OF HEALTHCARE.

Are You Equipped for Long-Term Success?

-  TALON **protects employer groups from overpaying** for care while integrating seamlessly into existing architectures.
-  TALON's **MyMedicalShopper** platform **empowers** consumers to take an active role and make responsible decisions about their own care.
-  TALON's platform was the model used when Transparency in Coverage was defined under the ACA.

Achieve full transparency compliance and a **20-40%** reduction in medical costs and premiums with **TALON**.

THE FACTS

Employer groups are facing potentially budget-breaking penalties of **\$100 per member, per day fines** if they fail to comply with transparency mandates.

Employers could be **OVERPAYING** for healthcare by **40% or MORE** due to extreme price variations in the marketplace.

Employers are facing record employee attrition.

Ask yourself the following questions:

- 1** Are we safe from the financial penalties?
Can our compliance solution deliver the required consumer shopping experience, including accurate estimates of costs at plan-level *and* subscriber level, all with network guidance?
- 2** Does our transparency partner take care of RBP plans, direct contracts (DPC), and other special arrangements so the shopping experience identifies **ONLY** the correct price?
- 3** Are eligibility updates, plan design feeds, consumption accumulators, QPA, and Advanced EOBs fully automated?
- 4** Does our solution include a dynamic rewards system that incentivizes responsible consumer care decisions?
- 5** Have we architected a compliance solution that scales and will work for the long-term?

The Time to Act is NOW.

Let's talk TODAY!
