# TALON

Experience the Evolution of Intelligent Data
with OwlSight

TALON is moving healthcare market intelligence forward with OwlSight by providing insights with real claims data and Machine-Readable File (MRF) validation.

The Difference Is Truly Visionary

Advanced Validation

Sophisticated algorithms to cleanse MRF data

Continuous comparison to claims database

Unparalleled data integrity and relevance

Real Claims Data Insights

Back testing of post-adjudicated commercial claims

Granular view of trends, spend, and utilization

Ongoing process weeds out inconsistencies

Full-Circle Transparency

Seamless integration across TALON tools to inform strategic decisions

Scalable view from patient choices to broader market dynamics

Stay ahead of trends to reduce costs and improve care quality

Engage. Empower. Evolve.

OwlSight provides data analytics clarity to generate optimized savings strategies through actionable insights.

Comprehensive Pricing Database
Our database includes full national coverage of all payers and hospitals, rigorously tested though our curation process.

Cloud-Based Accessibility
Instant, 24/7 connection to our cloud database, facilitating flexible and remote data evaluation.

Monthly Updates
We keep you informed on the latest pricing trends and changes in the healthcare market, ensuring timely and relevant decision-making.

Platform Agnostic
Ability to utilize any IDE or analytics platform, eliminating time-consuming integration processes.
